ABOUT ME

Hello! Welcome! My name is Shelly and here is the abridged version about me. I was born and raised in Sacramento, California and moved to Virginia for college and have remained in Southwest Virginia ever since.

I've spent much of my sixteen-year career working at firms and in 2019 started my own business. As you know, being a business owner requires more than just design knowledge. It requires having multiple balls at play and keeping constant track of the big picture. Always thinking five projects ahead, keeping track of timelines, deadlines, budgets, contracts, marketing, communicating with employees, and subs so that everyone is on the same page. Coordination, flexibility, and multitasking are absolute requirements.

I'm a never-ending learner. This industry is always changing and requires the latest knowledge in codes, materials, and digital technology. I just took a refresher course in Photoshop, classes in human centered design, web design, digital marketing, graphic design, and I am a Certified Aging in Place Specialist.

As you will see in my portfolio there is a wide range of styles and projects. That's because this work isn't about me. It's about who I'm working for. It's their style, budget, preferences, not mine. Some people want modern. Some people want traditional. Some people want pink wallpaper! Yes, it's true! How all that fits together is a problem-solving challenge I love to do everyday. Everyone deserved beauty & accessibility. Let's get to work!

"Creativity is allowing yourself to make mistakes. Design is knowing which ones to keep."

-Scott Adams
